We've Only Just Begun

Wells River, Vermont

DEDICATION

We, the class of 1978 dedicate our yearbook, "WE'VE ONLY JUST BEGUN," to those who deserve it most: our parents. As a token of our appreciation, we'd like to take this opportunity to thank you for encouraging us and constantly supporting us in helping us to accomplish our achievements and bolster our confidence when we encounter failures. No one deserves to have this dedication more than you — you who have devoted so much of your time and energy.

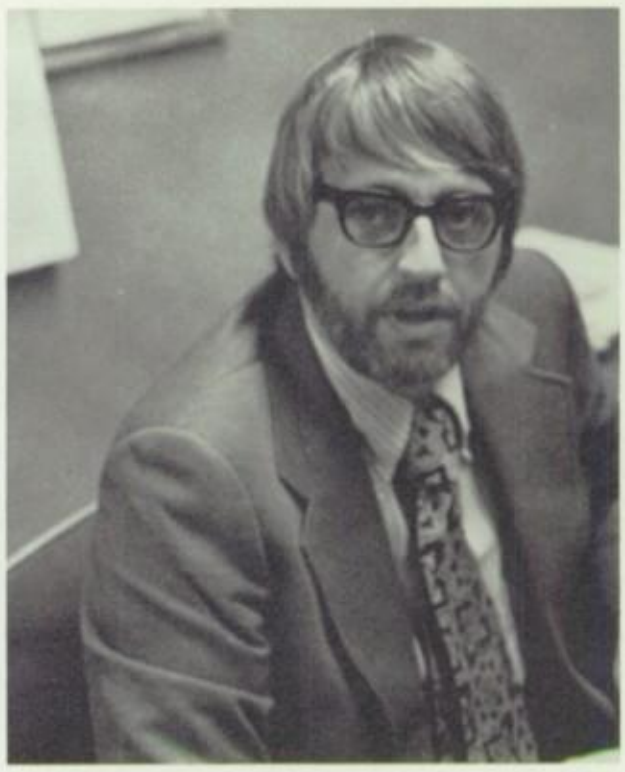
Thanks Mom!

Thanks Dad!

Class of "78"

B.M.U. — You've been good to us!!!

Superintendent's Message



To the Class of 1978:

You are to be congratulated for your success in attaining your high school diploma.

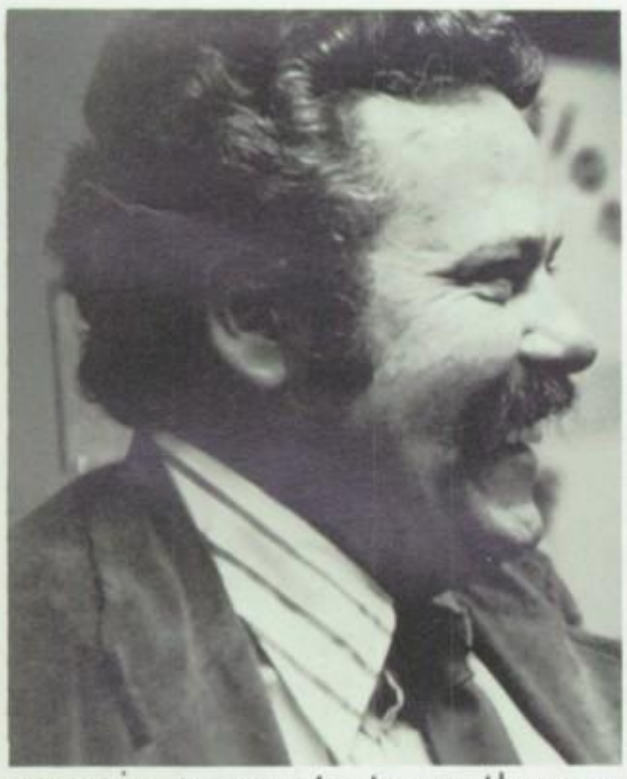
Your parents and teachers have provided the ingredients for your education! How you use your education is up to you. You have an overwhelming number of options concerning your continuing education (and you all **will** continue learning!); how you will relate to others; how you will make decisions concerning the world of work.

Don't forget your experiences at B.M.U., but don't waste your time wishing it had been different or that you could go back.

Ready or not, the future is yours.

Good luck!

A. Keith Ober
Superintendent



Principal's Message

To the Class of 1978:

Congratulations on your successful completion of high school requirements for graduation.

You will face many challenges, opportunities, and difficulties as you grow through life. You will find life very difficult, but like George Moore said in **The Bending of the Bough,** "The difficulty in life is the choice."

At this point in your life you should have the foundation of values, judgement and upbringing to make the best choice. It is still up to you.

If you follow the crowd, that is a choice. If you prefer to remain separate from the crowd, that is your choice. You are the sole director of your life and its direction is always made by choice.

I wish you the best of luck in the future and I know that you have the courage to make the best choices for your life.

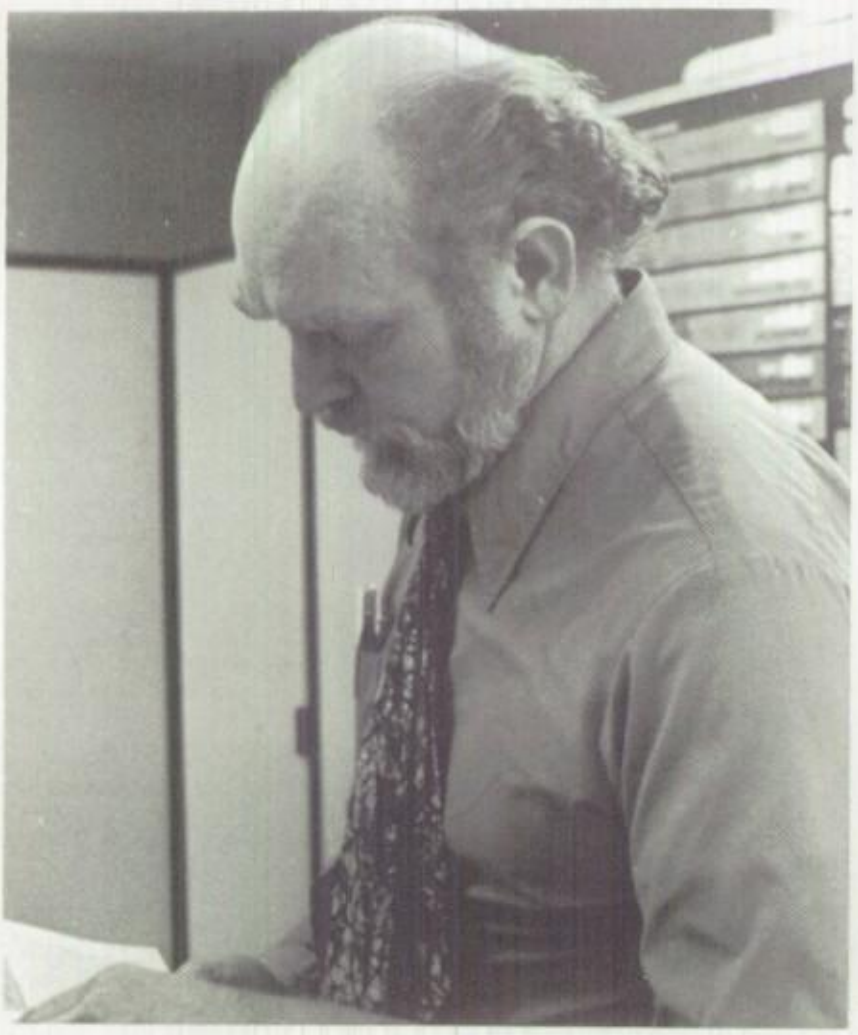
Yearbook Staff

MR. NICKERSON, Advisor

CHERIE RODIN, Editor



This year it was my privilege to be editor of "We've Only Just Begun." It was a great learning experience, and I want to express my deep appreciation to Mr. Nickerson for his assistance and patience. My special thanks go to Judy Eastman, who was constantly at my side, helping in every situation and especially the tough spots. The photographers also deserve recognition for their hard work. The list of items that had to be accomplished often seemed tremendous and the discipline attained from that will be useful the rest of our lives. Such a strong staff as what we had did seem to make it all worthwhile.

Cherie Rodin, Editor-in-Chief

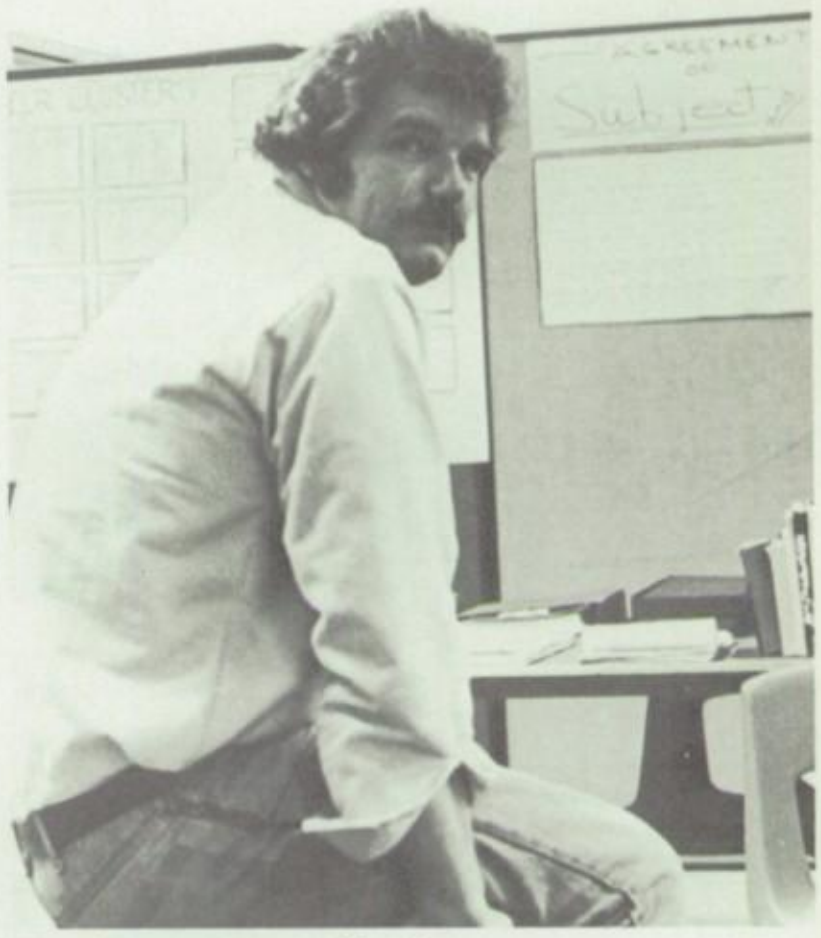
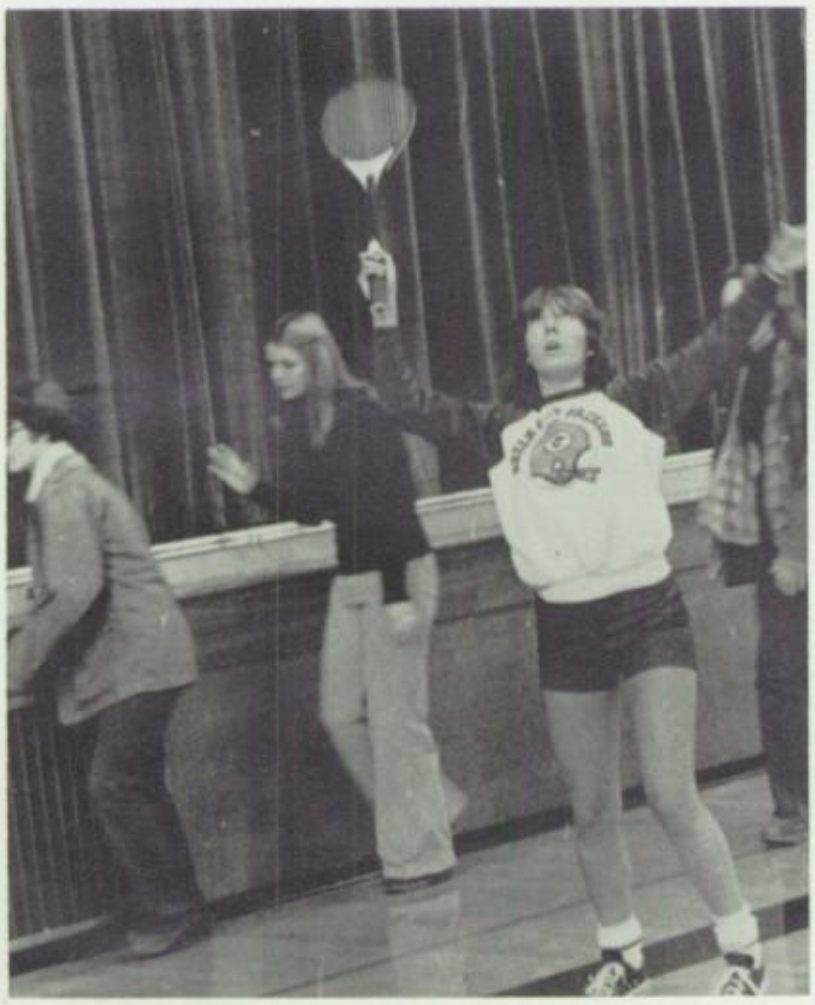
Chock up one for the seniors!

Senior Class Advisors

Miss Piper



Mr. Scott



DIANA GARZA

Diana came to us from Monterrey, Mexico as a foreign exchange student. She was the guest of Meg Powden.

While becoming involved in numerous activities Diana added life to the school with her spirit. An example of her spirit was her support for the field hockey team and participation in basketball.

It was a rewarding experience and a pleasure to have Diana here with us.

We wish her the best of luck in the future.

I, Amy Zambon, do will and bequeath my ability to get into trouble to Neal.

Class Prophesy

New York City, N.Y.
May 1, 1988

Dear Jane,

Do you realize that this June 15th it will be ten years since we graduated? I think we should have a reunion. What do you think? Since you were our class secretary, I thought I would write to you.

How's your teaching job? I'm working at Omega Computer Systems but I have been offered a job as Senior Programmer at IBM in Montana. I think I'll take it because then I'll be closer to Mike who is a hunter's guide. I'll be replacing Sharon who is leaving to pursue her engineering career in Egypt. Nathan is also going to Egypt for a business convention during his summer break from pro basketball. Following the convention, Nathan will guest star on Ross Hart's Wide World of Sports program. Ross will also be covering the time trials of the Indianapolis 500 where Shawn and Mike Morse will be competing for the pole position. That'll be something to watch!

Did you catch the article in Time Magazine last week in which Darlene revealed her cure for hangovers? Linda was also mentioned as being her assistant. Lori also helped by keeping the data organized. Kelly and Liesa are in the Medical World as well. They're nurses at Mass. General.

Last week I bought the most beautiful dress for my farewell party. Much to my surprise it was designed by Mary Hart! She has a very successful boutique in the Big Apple. While there I ran into Cherie who is vacationing from her Parisian health spa. I guess I am going to take the Montana job. While making plane reservations, I discovered that Doug and Alan will be piloting the plane and Peggy will be one of the stewardesses.

Did you hear that Donna and Suzette are finalists in the National Mother of the Year Contest? It's a pretty close race between them for the #1 spot. While they're in Chicago for the finals, Linnae will be taking care of their children at her day nursery. Her business is so good, she is hiring Denise as her assistant. Laurie is the President of the Child Abuse Prevention program which is affiliated with Linnae's center.

Last night, I went to the gala grand opening of Spike's disco. I literally bumped into Donita so I joined her and Debbie, David, and Scott at their table. The tab was on Debbie in celebration of the sale of her millionth painting.

Well, time to go. Let me know how you feel about the reunion so that we can start planning it.

See you soon,
Judy

Barnet, Vt.
May 14, 1988

Dear Judy,

It was really good to hear from you. And you're right about the reunion. We should have one. I'd love to help organize it because I'll be out of college next week. I went back to UVM to get my Master's Degree in Education. Meg will probably help too because she just received her Ph.D. in Physical Education.

It sounds like your career is really soaring. I wish you the best of luck. You won't be the only '78 graduate at IBM. Critter's working there also. She's helping design the biggest, most elaborate computer in the world. Caren, too, is at IBM. She's the President's executive secretary. Speaking of secretarial jobs, Brenda Smith (whoops! I mean Mrs. Craig Powers) is executive secretary for the President of National Life of Vermont. Debbie Baker and Diane are secretaries at the Vermont branch of the Jones' Savings Bank. Kats owns this bank and many others that are special all over the USA. She herself lives in Georgia, just 78 miles from Jimmy Carter's peanut operation.

You mentioned that Ross will be covering many sports events. I just heard that he and Dennis will be commentators at the 1988 Olympic Skiing Competitions to be held in Zurich, Switzerland. They wanted Dennis for the job since he won 3 gold medals in the 1984 Olympics. Ross will be extremely busy because he'll be covering Rusty's trucking expedition from Madrid, Spain, to Moscow, Russia. Rusty hopes to finish his trip in 27 hours. Ross just finished hosting the drag races in Indianapolis where Malcolm won 2 first places. Bill also won 2 firsts. It was ironical because Bill designed the new tracks there.

It might be rather difficult for all of our classmates to attend the reunion because there are 5 farmers who are always busy. Duane and Buddy own a 1000 acre Holstein farm in Cabot. Besides his dairy farm in Danville, Dale Tinkham also operates a dog kennel. He has some champion dogs and also takes in boarders. Mona owns several racers and showhorses on her Massachusetts farm. Amy also owns horses as well as cows on her Bradford farm. She's been racing over at Thunder Road which WYKR has covered. I hear she's doing real well.

You should visit Mary Page. She works at New York Times and also does some free-lance exclusives for the Boston Globe. Brenda Bourtell also works in the literary World. She owns a library in Lyndonville and is working on her second novel in her spare time. She's going to help Daryl and Dale Picknell write a non-fiction book. It'll be about soils technology and wild life. Frank is helping them also by offering stories of his hunting experiences and by handling the photography needed for the book.

When you go to the plane terminal, you might see Mike Davidson. He's a mechanic at some New York airport. You could also see Keith's name in New York City. A business firm there is selling his pieces of furniture which are really slick.

From what you've told me and from what I've heard and seen, I'd say we have an extremely successful class. Well, I guess I better close this now while I have the chance. I think we should have a reunion so why don't you call me up next week.

A.M.F.,
Jane
